

# Monthly Indicators

## March 2026

U.S. existing-home sales climbed 1.5% month-over-month and 4.1% year-over-year, reaching a seasonally adjusted annual rate of 4.06 million units, according to the National Association of REALTORS® (NAR). The increase was partly driven by falling mortgage rates, which recently hit their lowest level in more than a year. Regionally, monthly sales advanced in the Northeast, South, and West, while the Midwest experienced a slight decline.

New Listings decreased 0.1 percent to 12,372. Pending Sales decreased 3.3 percent to 8,294. Inventory decreased 0.8 percent to 24,384.

Median Sales Price increased 3.8 percent from \$419,000 to \$435,000. Days on Market increased 9.8 percent to 67. Months Supply of Inventory remained the same as this time last year, at 2.8 months.

Housing inventory edged up 1.3% from the previous month to 1.55 million units, 14.0% higher than the same period last year. This represents a 4.6-month supply at the current sales pace, according to NAR. The median existing-home price grew 2.1% year-over-year to \$415,200, continuing the trend of annual price gains. The Midwest saw the largest year-over-year increase in median sales price, followed by the Northeast and South, while prices remained mostly flat in the West.
